DETAILED ACTION

Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-8, drawn to a networked electrical computer or digital processing system comprising remote data accessing, classified in class 709, subclass 218.
 - II. Claims 9-14, drawn to a method of database or file accessing comprising distributed or remote access, classified in class 707, subclass 10.
 - III. Claims 15-20, drawn to an electrical computer or digital processing system comprising an application program interface, classified in class 709, subclass 328.
- 2. The inventions are distinct, each from the other because of the following reasons:

Invention II is related to each of Inventions I and III, as process and apparatus for its practice. The inventions are distinct if it can be shown that *either*: (1) the process as claimed can be practiced by another, materially different apparatus, or by hand, *or* (2) the apparatus as claimed can be used to practice another, materially different process. (MPEP § 806.05(e)). In this case, each of the apparatus as claimed can be used to practice another, materially different process, such as a process in which the user information is downloaded to the server rather than uploaded to it.

Application: 09/900,737 Paper No. 9

Art Unit: 3627 Page 3

Invention I is related to Invention III as combination and subcombination. Inventions in this relationship are distinct if it can be shown that: (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In this case, the combination as claimed does not require the particulars of the subcombination as claimed, because a system in accordance with Invention I need not include any provision in the server for controlling access. The subcombination has separate utility, such as for use in a system having no additional computers.

- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. A telephone call was placed to Mr. William Scott Andes (Reg. № 33,582), attorney for applicant, on July 7, 2004, to discuss an oral election to the above restriction requirement, but the call did not result in an election being made.
- 5. Applicant is advised that the reply to this requirement, to be complete, *must* include an election of the invention to be examined, even if the requirement be traversed (37 CFR 1.143).

Application: 09/900,737 Paper No. 9

Art Unit: 3627 Page 4

Conclusion

6. Any inquiry concerning this communication, or earlier communications, should be directed to the examiner, **Jerry O'Connor**, whose telephone number is **(703)** 305-1525, and whose facsimile number is **(703)** 746-3976.

The examiner can normally be reached weekdays from 9:30 to 6:00.

Inquiries of a general nature or simply relating to the status of the application should be directed to the receptionist, whose telephone number is (703) 308-1113.

If attempts to reach the examiner are unsuccessful, the examiner's supervisor, Mr. Robert Olszewski, can be reached at (703) 308-5183.

Official replies to this Office action may be submitted by any *one* of fax, mail, or hand delivery. **Faxed replies are preferred and should be directed to (703) 872-9306** (fax-back auto-reply receipt service provided). Mailed replies should be addressed to "Commissioner for Patents, PO Box 1450, Alexandria, VA 22313-1450." Hand delivered replies should be left with the receptionist on the seventh floor of Crystal Park Five, 2451 Crystal Dr, Arlington, VA 22202.
